

ELECTRICITY DELIVERY PRICES

EFFECTIVE FROM 1 APRIL 2025 (GST EXCLUSIVE)

The prices in this schedule are used to invoice electricity retailers for the delivery of electricity on our electricity network. Electricity retailers determine how to allocate this cost with energy, metering and other retail costs when setting the retail prices in your power account.

Waipā Networks applies discounts in accordance with our Discount Allocation Methodology as published on our website.

NOTES:

- * All Inclusive is a closed plan. No ICPs may change to this plan.
- + Advanced All Inclusive is only available to customers with a single meter register and ripple control device.
- # Waipā Networks will endeavour to supply a minimum 8 hours per day for load connected to ripple control.
- ~ Night Only plans provide supply only from 11pm-7am.
- ** All customers with a C&I TOU meter with a maximum demand of 70kVA or more must be on a 400V or 11kV Contract.

Demand prices automatically increase in any month where the actual demand exceeds the kVA charged in the previous month. Should maximum demand, however, reduce, there will be no reduction in kVA charges for a full 12 month period.

- ^ These plans have the following time periods applied:
 - Peak (07:00 – 09:30 and 17:30 – 20:00)
 - Off Peak (22:00 – 07:00)
 - Shoulder (09:30 – 17:30 and 20:00 – 22:00)
